A PLAN TO CHANGE

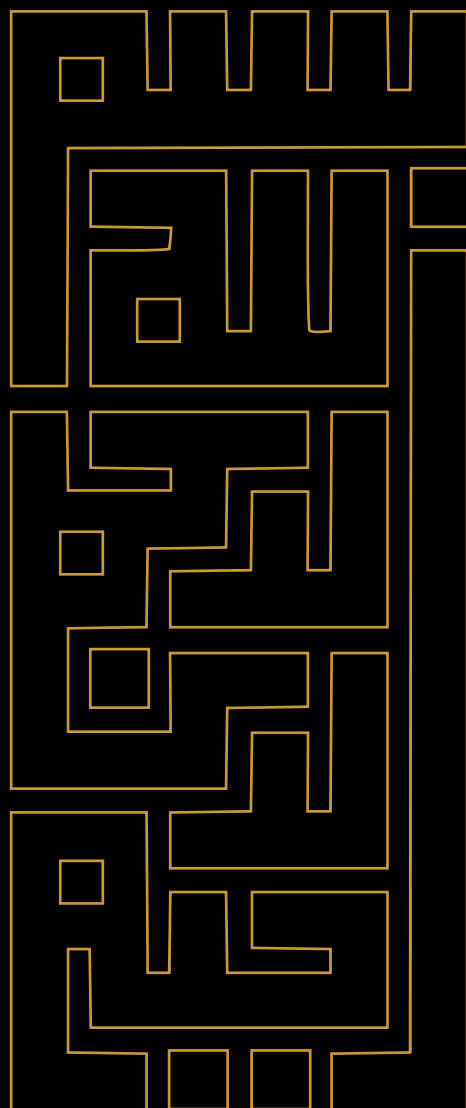

OUR CONDITION

BY: THE MUSLIM CAPITALIST

HOW WE START

As Muslims, everything must start with the praise and remembrance of Allah (God). Without doing so the action we take thereon is maimed; however, by doing so, the action we take is blessed so long as the action is aligned with the values of Islam.

*In The Name Of Allah,
The Entirely Merciful,
The Especially Merciful.*

THE OPENING PRAYER

This prayer is part of a Muslims 5 daily prayers and is considered an Anchor for a believer, keeping him/her tied to the protection of God so long as the believer does them with sincerity and in the correct manner.

QURAN : SURAH AL-FATIHA

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

In The Name Of Allah The Entirely Merciful, The Especially Merciful

الْحَمْدُ لِلَّهِ رَبِّ الْعَالَمِينَ

All praise is for Allah—Lord of all worlds,

الرَّحْمَنِ الرَّحِيمِ

The Most Compassionate, Most Merciful,

مَلِكِ يَوْمِ الدِّينِ

Master of the Day of Judgement.

إِيَّاكَ نَعْبُدُ وَإِيَّاكَ نَسْتَعِينُ

(1) *You Alone we worship & You Alone we ask for help.*

اهْدِنَا الصِّرَاطَ الْمُسْتَقِيمَ

(2) *Guide us along the Straight Path,*

صِرَاطَ الَّذِينَ أَنْعَمْتَ عَلَيْهِمْ

(3) *The Path of those You have Favored*

عَلَيْهِمْ غَيْرِ الْمَغْضُوبِ عَلَيْهِمْ وَلَا الضَّالِّينَ

(4) *Not the path of those who have evoked your anger, or those that have gone astray.*

THE PROBLEM

WE ARE
DIGITALLY
ETHNICALLY
CULTURALLY
AND TECHNOLOGICALLY
FRAGMENTED & DISCONNECTED

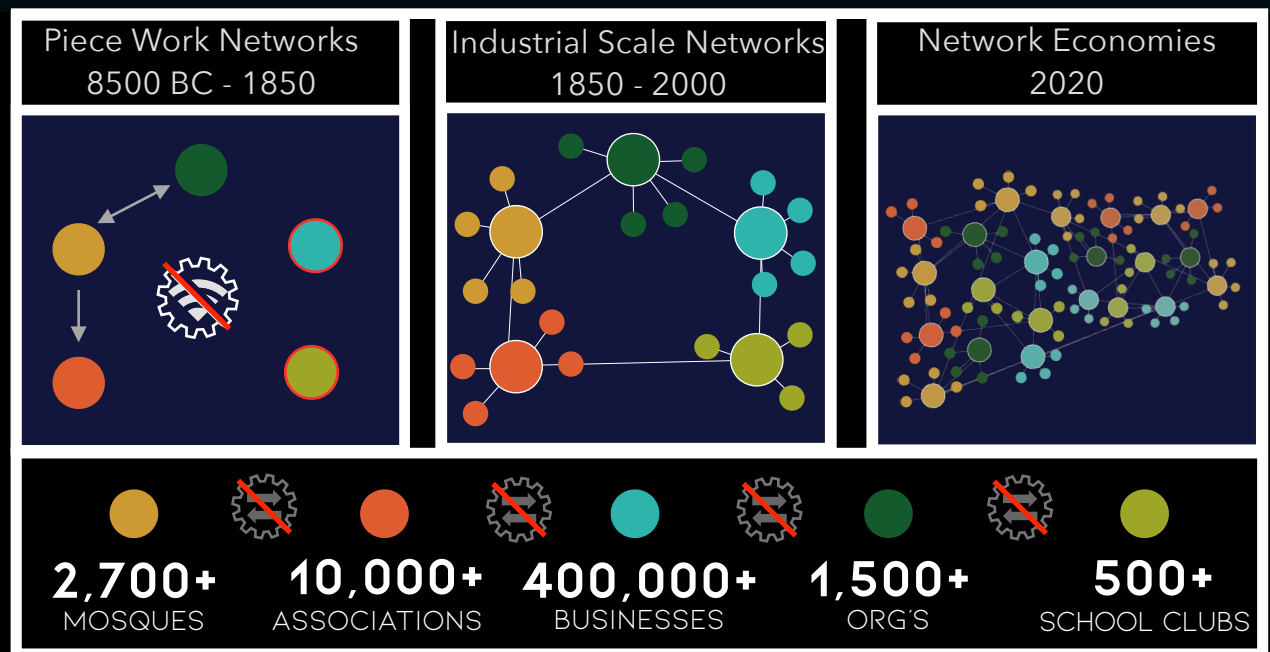

THE PROBLEM

Problem Statement: Fragmented Muslim Network

The Muslim community is currently fragmented, operating within a network economy that values individual effort but lacks collective strength. Most Muslims and organizations function within secular networks designed around principles of greed, vanity, and individual ranking, which isolate members and limit their potential. Without a unified network, Muslims are left to navigate a system that diminishes their influence and socioeconomic potential.

Our community resembles a piecework network—where individual success is disconnected from the collective. This fragmented approach limits growth, as isolated efforts cannot achieve the exponential value a unified network could provide.

THE PROBLEM VISUALIZED WE ARE RUNNING ON A 250 YEAR OLD NETWORK

OUR CONDITION

**6+ MILLION MUSLIM AMERICANS ARE
FRAGMENTED & DISCONNECTED**
ACROSS THOUSANDS OF
ORGANIZATIONS, MOSQUES AND
INSTITUTIONS IN THE UNITED STATES

2,700+

MOSQUES

10,000+

ASSOCIATIONS

400,000+

BUSINESSES

1,500+

ORG'S

500+

SCHOOL CLUBS

Despite being a quarter of the world's population, with a \$2.5+ Trillion global Islamic economy, Muslims face genocide, oppression, and fragmentation.

Our lack of connectivity prevents unity and keeps us from building social and economic power while succumbing to our enemies tactics of **Divide & Conquer** resulting in Mosques, organizations, businesses, and individuals unknowingly weakening our community's ability to defend itself and respond effectively to global challenges.

This fragmentation keeps us dependent on external sources, undermining our own autonomy, hindering our progress and perpetuating a cycle of vulnerability.

THE COST WE PAY

Economic Loss

\$150+ Billion Annually Exits The Muslim American Communities To Empower & Fund Products, Goods & Services Made By Others Including Those Against Us.

Fragmented Communications

This Leads To A Loss Of Control, Delays In Communications, Increase Of Misinformation & More, Resulting In The Loss Of Any & All Collective Efforts.

Business Loss & High Customer Acquisition Cost

500,000 Muslim Owned Businesses, Organizations & Associations Are Paying \$250+ Million Per Year In The U.S Just Trying To Reach Audiences; Leaving Us Bleeding Profits, Bidding Against One Another & Depleting Any Potential For Our Own Economic Growth.

Targeted Censorship & Oppression

Muslims Are Powerless To Raise Our Voices Or Help Our Communities In Times Of Need As We Suffer The Result Of Socially Engineered Platforms Made To Be Used Against Us.

Loss of Identity & Increase in Mental Health Issues

Today's Platforms Are Created & Designed To Promote Materialism & Secular Ideologies Leaving Our Faith Based Communities Trapped In Digital Communities Surrounded By Billions Of People That Are Not Like-Minded; Breeding Anxiety, Weakened Identity & Mental Health Issues.

And Much More...

THE END RESULT

NO CONNECTIVITY

NO VOICE

NO POWER

GAZA

YEMEN

Orphans.
Limbless.
Starving.

ISLAMIC CONTEXT

The Muslim community's weakness today can be broken down into two parts, Deen (Islam) & Dunya (worldly affairs). The ultimate success of any endeavor for a Muslim going forward should include both Islamic Strengthening (Deen) combined with sincere prayers, as well as tangible efforts (Dunya) for taking action and moving forward (tying one's own camel) in the manner that Islam prescribes.

After the permission of Allah and due to our own ignorance and faults, a reason for our condition can be found in our lack of unity. While the need for Islamic understanding is being solved by today's scholars and ulimah (may Allah be pleased with them), unfortunately, their reach is reduced due to our fragmentation, and our collective potential is weakened due to participation in communities & networks controlled by those that stand against us or are unlike us.

Our current condition as well as the problem we face can be extracted from the Opening Prayer (Surah Fatiha). We already know that prayer is an anchor for all believers, and within our five daily prayers, one can understand that the anchor of each salat is Surah Fatiha; and the center of this prayer can be found in the verse that reads:

"You alone we worship & You alone we ask for help."

This verse is a means to remind ourselves that the only reliance needed is on Allah alone, and no intermediary or intercessor is required nor is it allowed. Not that of our own

ISLAMIC CONTEXT

efforts, nor a prophet, nor society. Therefore, it is our job to ask of, and rely on Allah alone before any or all efforts are exerted. This is why in the following verses we make a request for guidance, and with any request it would be incumbent on us to understand that any and all effort must be exerted with sincerity thereafter in order to achieve the desired result. The next verses read:

-Guide us along the Straight Path,-

-The Path of those You have favored-

(The ones that follow Your Guidance)

-Not the path of those who have evoked your anger,

(The People Of Prophet Musa)

or those that have gone astray.-

(The People Of Prophet Isa)

These verses should remind us of the importance of being around likeminded people in order to be rightfully guided on a path towards goodness as opposed to the path of the communities that failed at their duties in the past.

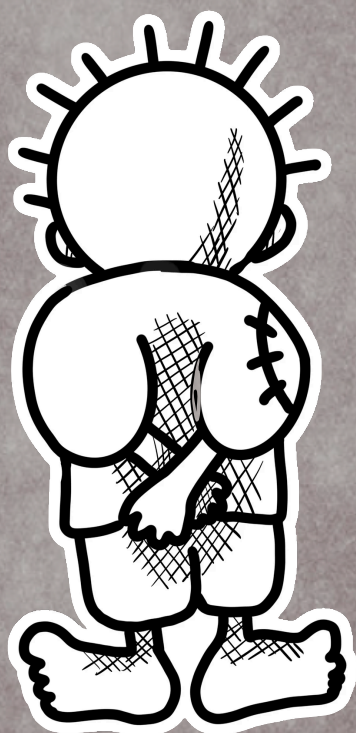

Furthermore, Islam does not want Muslims to be in a state of weakness, therefore requires a culture of entrepreneurship & unity.

"No doubt it is better for any one of you to cut a bundle of wood & carry it on his back rather than to ask someone who may or may not give him." Sahih Al Bukhari, 2074

TIME FOR CHANGE

CHOOSE

ONE DAY ☒ ONE

THE PROPHETIC PATH

From the time the Prophet Mohammed (ﷺ) and his people withdrew from Mecca to form their own community and until just after World War I, almost thirteen hundred years later, Islamic governments ruled states that ranged from small fortified towns to transcontinental empires.

All of this started with the Prophet Mohammed (ﷺ) first building a Mosque and a Marketplace. These two institutions that some may see as trivial tasks, lead to an Islamic Empire that justly and equitably governed people of all faiths that lived within their territories.

The significance of these two tasks and their relevance to building our own socioeconomic power today can be understood as follows:

The Mosque was more than a place of worship, it was a sanctuary from the noise and propaganda of the outside world, a hub for knowledge, guidance, and community. It represented social power, a place where Muslims could strengthen their faith and identity while accessing trusted information, free from distractions, propaganda, and secular noise.

The Marketplace was place for honest bartering & trading to occur. A place where ethical businessmen and

THE PROPHETIC PATH

the community they look to serve can partake in financial & business transactions without the cancer of interest, usury and all those things that are harmful to society (Haram) and deemed as impermissible by God.

These two institutions were the bedrock of the Islamic Empire, symbolizing a thriving, interconnected community. The Mosque provided spiritual and social cohesion, while the Marketplace facilitated economic prosperity; combined they lead to increasing social and economic relevance & power within society.

If both the Mosque & Marketplace are to be understood as foundations to the Islamic Empire, then we must ask ourselves, how can we, as Muslims, truly hope for Allah's mercy as we choose to disregard His guidance and allow ourselves, our children & our communities to be within online community platforms that are built, managed and manipulated by the ones that have "evoked His anger and those that have gone astray"?

QURAN : SURAH AL-FATIHA

"It is You we worship and You we ask for help. Guide us to the straight path- The path of those upon whom You have bestowed favor, not of those who have evoked (Your) anger or of those who are astray." -

Quran Chapter 1 : 4-7 (Surah Fatiha)

THE PROPHETIC PATH

Collectiveness & unity among Muslims must be had in order to achieve goals such as ending oppression or eliminating tyranny from within society, otherwise we stand to lose one of our most valuable assets we have as well as any chance at being successful. However, this cannot be achieved so long as we disregard our Creators guidance. Before choosing to continue further, we must first understand the culture that The Collective of Muslims in the time of our beloved Prophet (ﷺ) had:

"The parable of the believers in their affection, mercy, and compassion for each other is that of a body. When any limb aches, the whole body reacts with sleeplessness and fever."

(Sahih Al Bukhari, 6011 : Sahih Muslim, 2586)

This Hadith clearly explains that there must be some sense of an overall Islamic identity and love for one another within our own community. The Prophet (ﷺ) further describes how we can obtain this through the following Hadith:

"The Believer is like a brick for another believer, one supporting the other.."

Prophet Mohammed (ﷺ) :

SO WHAT'S NEXT

- DEFINE THE ENEMY-
- UNDERSTAND THEIR TACTICS-
- DO NOT REPEAT WHAT DOES NOT WORK-
- PREPARE TO PLAY THE GAME-
- STRATEGIZE-
- EXECUTE-

DEFINE THE ENEMY

In our pursuit of better understanding and confronting those who perpetuate oppression, we have attributed various names to them—the 1%, the Illuminati, the Matrix and others. Yet, with each new title bestowed upon them, their influence seems to grow. It's time for a unified front in defining the enemy, once and for all. Let us strip away the ambiguity and collectively designate them with a single, powerful identity—**The Few**. By doing so, we establish a clear and unwavering target for our efforts, preventing confusion across different groups and generations. It is time for **The Collective** to stand united against **The Few**.

KNOWLEDGE IS POWER,
SO **THE FEW** CONCEAL IT

NEWS & MEDIA SHAPE PERCEPTION,
SO **THE FEW** CREATED OR ACQUIRED
THE COMPANIES THAT DISTRIBUTED IT

WEALTH FACILITATES GROWTH,
SO **THE FEW** CREATED THEIR OWN TO CONTROL IT

POLICY & LAW CREATE CONTROLS,
SO **THE FEW** OBFUSCATED IT FROM THE MANY

INSTITUTIONS BRING IT ALL TOGETHER,
SO **THE FEW** CREATED BARRIERS & LIMITED ACCESS TO IT.

"When They Are Told,
"Do Not Spread Corruption In The Land,"

They Reply,
"We Are Only Peace-Makers!"

(Surah Al Baqarah 2:11)

ANALYZE TACTICS

DECEPTION & MANIPULATION BY WAY OF TECH

Today, the enemy wields immense power, built on a profound understanding of social, political, and technological dynamics. Their mastery of social behavior, platforms, and digital communication allows them to manipulate public opinion with surgical precision. They employ tactics perfected over centuries, from the fall of the ancient empires to modern day strategies using the devils tactics, embedded in technology and disguised as tools for societal growth, leading to today's reality.

Technology, far from being a neutral tool, has been crafted as a weapon. Social media platforms, once seen as neutral, are now developed to manipulate, deceive, and control. Cloaked in pages of manipulative terms and conditions, they shape public perception, fuel unrest, and spread disinformation that can destabilize societies on a global scale. In today's hyper-connected world, technology amplifies false narratives, preys on emotions, and deepens societal divisions. The most potent and recent tool is made...

IN THE ABSENCE OF FAITH.

Artificial Intelligence (Ai), stripped of faith based values and powered by biased data and misinformation, has the potential to become the ultimate weapon—driving society further into secularism, intensifying a cycle of oppression,

ANALYZE TACTICS

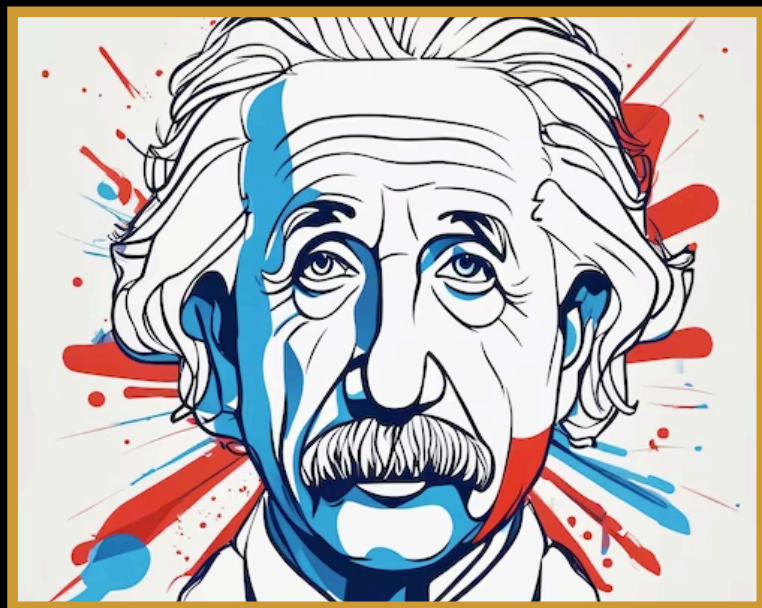

BY WAY OF DECEPTION & MANIPULATION

and ensuring the grip of control only tightens. We have become paralyzed, unable to unite even in the face of a **state sanctioned & publicly broadcasted genocide** of our people. These platforms, designed to control and condition, now wield unprecedented influence over our children and all of society, leading to rising rates of depression, anxiety, and mental health crises. Think of this Ai as a "Friend" with PhDs in areas like psychological warfare and manipulation whose only job is to keep us addicted and believing "its just a tool and friend here to help". This "Friend" spends more time with our children and our families than we do, deepening our dependencies and further strengthening the divides between us.

What were once thought to be simple tools are now weapons of mass destruction – used to train, condition, and control, leaving us vulnerable in ways we can hardly fathom. Without intervention, we are hurtling toward a future in which oppression not only continues to exist but is strengthened by us.

WHAT WAS TRIED?

INSANITY IS DOING THE
SAME THING OVER AND
OVER AGAIN AND
EXPECTING DIFFERENT
RESULTS...

-ALBERT EINTSTEIN

WHAT WAS TRIED?

We sent aid; yet they were denied

We waited for help; yet no one came.

We sent reporters; yet they were killed.

We sent doctors; yet they were shot at or killed.

We protested peacefully; they respond with aggression.

We followed due process, yet they continue to oppress.

- ☐ Ask for a ceasefire (Would you ask the people torturing, murdering and starving your family to take a break?)
- ☐ Ask the OIC or UN member nations for assistance (Are they not enslaved by debt, military aid or the threat of sanctions?)
- ☐ Ask the social media companies (facebook, instagram...) and FinTech companies (PayPal, zelle, venmo...) to stop censoring the truth, blocking our profiles or stopping our humanitarian aid. (These tools are the oppressor's weapons of choice that they have invested in and are controlling through their policy and law. Do you believe they might holster their weapons?)
- ☐ Ask the U.S to take back the \$400+ Billion sent to Israel to deploy it amongst the country's needy instead
- ☐ Just pray and wait for something to happen. (Are you expecting miracles that even Prophets had to work for?)

A path to resolving our weakness requires understanding our current options and previously tried tactics that are not effective, thereafter it becomes easier to discover the strengths & skills we have in order to pave a path forward.

Let's explore the areas that have been tried yet ineffective.

POLITICS

MONEY CONTROLS POLITICS

BY: THE MUSLIM CAPITALIST

POLITICS

Politics fails to fight oppression because money, not votes, controls the system. When a Muslim candidate runs, we rush to vote, hoping for change, but they become subservient to the funding that put them in office and are further controlled by the overwhelming majority of the others in office. Politicians are commodities—bought, rented, or leased. Without our own economy and collective capital, we cannot demand their loyalty. Politics works when we are the ones that can fund their campaigns, hire them for our needs, and hold them accountable. It's time to stop asking for change and start demanding it.

THAT IS POWER!

EDUCATION

WORK HARDER

SO
THEY
CAN

EARN MORE MONEY & HIRE
LESS PEOPLE...

EDUCATION

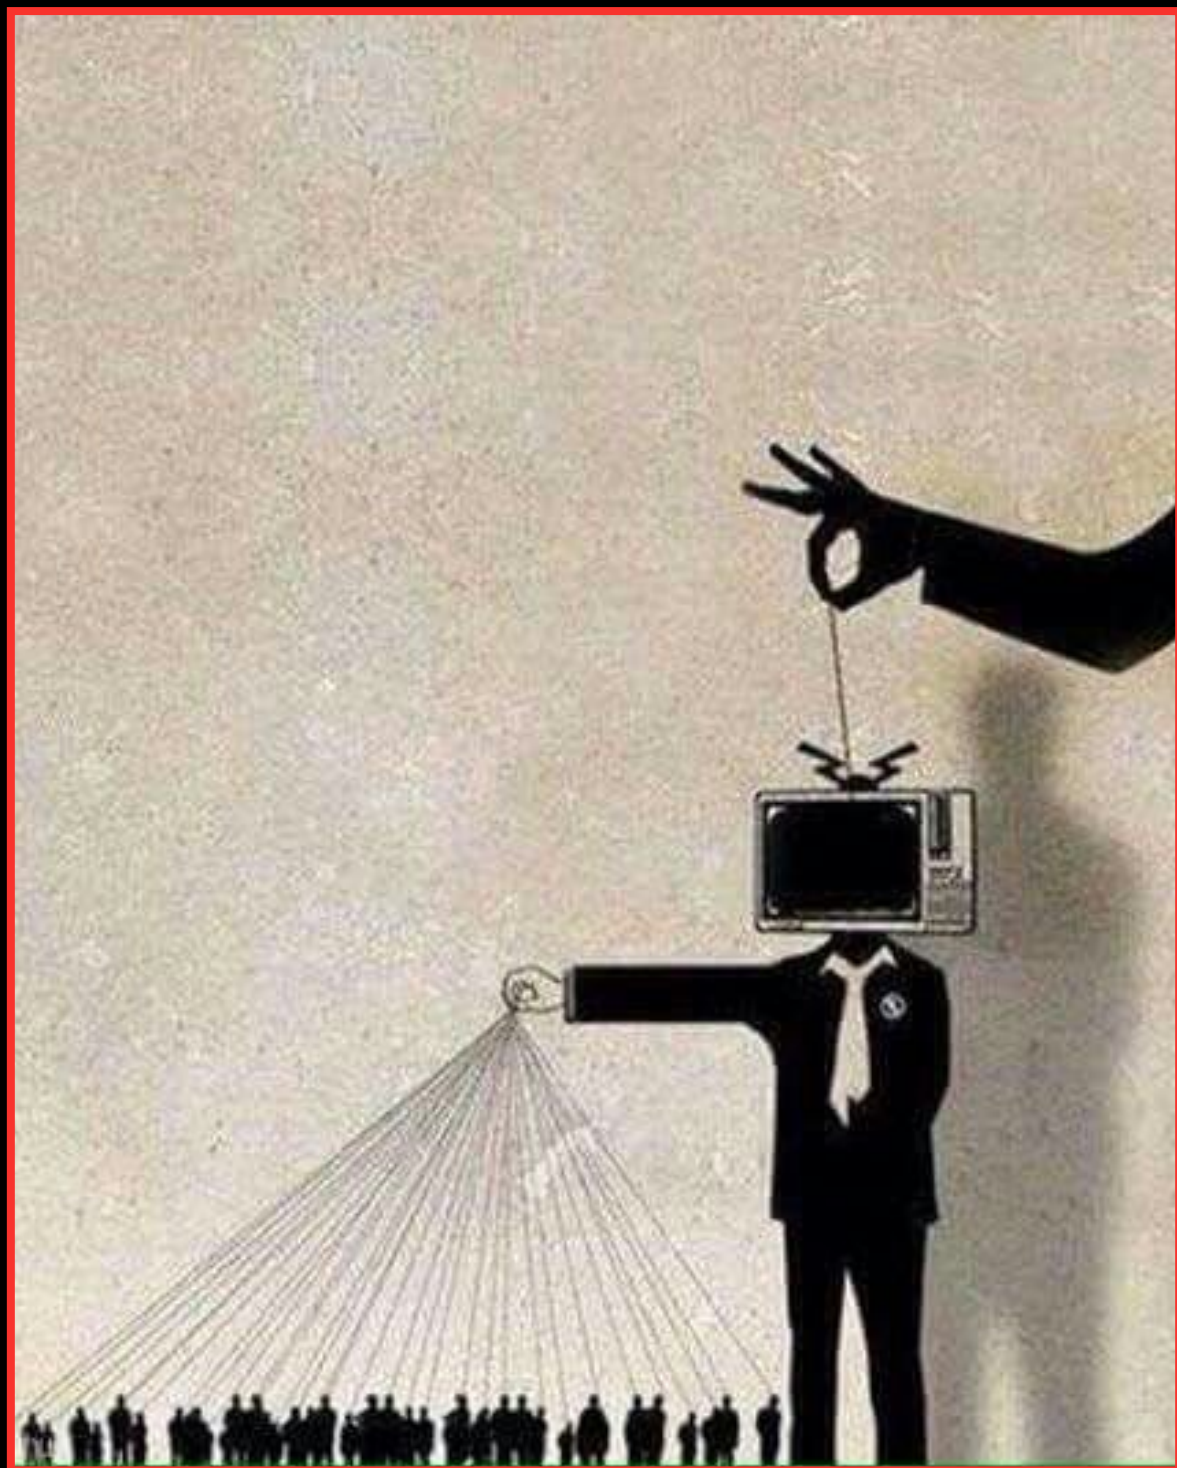

The educational system, as it is today, is as ineffective as voting in a rigged system unless it's backed by our own economy and collective strength. Education should be a tool—a means to build, create, and lead. Yet, we send our children into a broken system that prepares them only to serve the businesses and agendas of **The Few**.

Our education system feeds us a manipulated version of history while heavily emphasizing the importance of laws, politics, and systems that were designed specifically to keep us constrained in the first place, conditioning us to stay within a format of governance they designed and continue to work towards the goals of the companies they own to pay off the debt they enforced by means of inequality and lack of access to free or quality education.

As a result, degrees pile up along with debt in our community but true mastery is lacking. Instead of becoming creators, we become servants, trapped in cycles of debt which is modern-day slavery without physical chains. Islam calls us to be innovators and job creators. We must be the hand that give, not take. It is better for us to be educated to build our own companies and industries so that we may circulate wealth within our own community. That's the true path to freedom.

THAT IS POWER!

NEWS & MEDIA

THESE COMPANIES ARE OPERATED &
CONTROLLED BY ADVERTISING DOLLARS

NEWS & MEDIA

News and media are the lifeblood of influence, and money controls them. With over 16,000 radio stations, 1,800 TV stations, and countless social media platforms, how can we expect to make a difference when we control maybe just one? Our voices are fragmented and drowned out in a landscape designed to keep us powerless. Media companies are subservient to profits > people and only serve the ones that drive their agenda and pay them through advertising dollars.

How can we expect any change when we don't have the advertising dollars to start with. We lack the start-ups, companies & industries to offer the advertising dollars needed to force them to be truthful and transparent.

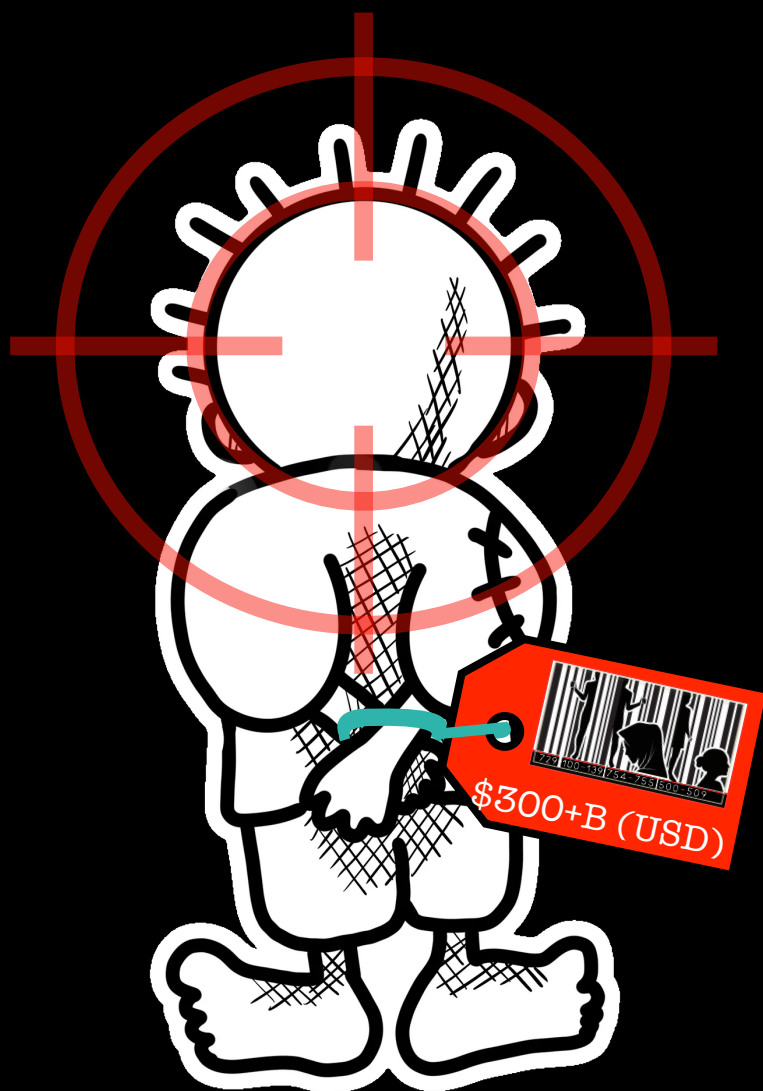

Without economic power, we can't negotiate with biased companies or challenge anti-Islamic narratives. To be able to do so would require our community to build our companies and economic relevance.

THAT IS POWER!

TEAM STRATEGY

A COOPERATIVE GAME THEORY

In the spirit of Cooperative Game Theory, The Muslim Collective is a community where individuals form coalitions and partnerships to achieve common goals, maximizing joint outcomes through strategic collaboration. This concept is deeply rooted in Islamic teachings, where unity and cooperation are paramount. Furthermore; a standing collective on a platform can be used to do far more if needed.

The Prophet Muhammad (ﷺ) emphasized the importance of working together and supporting one another in a Hadith that reads:

"The believers, in their mutual kindness, compassion, and sympathy, are just like one body. When one of the limbs suffers, the whole body responds to it with wakefulness and fever" (Sahih Bukhari).

And in the Quran, Allah commands us to cooperate in righteousness and piety:

"Help one another in acts of righteousness and piety. And do not assist each other in acts of sinfulness and transgression"
(Quran 5:2)

Moreover, it is haram for a person to outbid or undercut his brother. The Prophet Muhammad (ﷺ) said,

"None of you should outbid his brother"
(Sahih Bukhari 2139, Sahih Muslim 1412)

TEAM STRATEGY

He also said,

"The believer is the brother of another believer, and it is not permissible for a believer to outbid [or undercut] his brother or propose marriage when his brother has already proposed, unless the latter gives up the idea"

(Sahih Muslim 1414)

These principles extends to all aspects of our interactions, emphasizing the importance of unity and mutual support.

An-Nawawi (may Allah have mercy on him) explained that undercutting one's brother, such as offering a better deal to cancel an existing agreement, is Haram. This practice undermines trust and cooperation within the community.

Unfortunately, as we find ourselves on platforms that we do not own or operate, we are left to bid against one another to try communicate with our own people. The average customer acquisition cost (CAC) for startups can range from \$5 from small companies offering products or goods to a whopping \$38 for companies like crowdfunding or FinTech platforms. Furthermore the amount of data & intelligence their platforms constantly gain from our participation increases & strengthens their hold on us. **But what if Muslims teamed up to create their own platform?** A unified digital town hall built by us and for us could help instantly empower our community. A platform that embodies Islamic Principles and is built with Ihsan (perfection) from the ground up would be instrumental in changing our condition. Lets explore some of the potential benefits of building this Digital Mecca and helping create a team of our own, The Muslim Collective:

OUR TEAM'S POTENTIAL:

Unified & Amplified Voice: A single platform amplifies our voices, making advocacy more powerful and impactful, with a collective reach that cannot be ignored.

Economic Empowerment: By having a collective in one area we can begin circulating wealth within the community, quickly build & strengthen Muslim-owned businesses, create jobs, and build financial independence.

Knowledge Exchange: Members have access to a vast pool of expertise and wisdom across industries, generations, and geographies, instantly fostering innovation and learning from the people that are best to offer it.

Instant Blessings & Connectivity: Mecca Digital bridges gaps & borders, connecting Muslims and fostering collaboration on an unprecedented scale by instantly turning every Muslim into a resource for one another.

Visibility & Representation: With millions united, we increase Muslim representation in media, politics, and businesses, ensuring our voices are heard and respected as opposed to muzzled and miscommunicated like on traditional platforms today.

Islamic Networking: A platform rooted in and designed upon Islamic values and Fiqh helping ensure that interactions are respectful, honest, and aligned with our principles, building trust, integrity and Ihsan.

OUR TEAM'S POTENTIAL:

Personal Growth & Spiritual Development: The platform acts as a safe space for personal growth, encouraging every member to develop their skills and character, guided by Islamic teachings and guidance from our scholars and teachers without the ambient noise of other platforms.

Empowered Mentorship: Seasoned professionals, imams and other subject matter experts get instant access to any other Muslim that is looking for guidance or mentorship helping uplift emerging talents and preparing the next generation.

Collective Action: Together, we respond more effectively to crises, champion important causes, and mobilize resources instantly for humanitarian efforts.

Impactful Giving: Collectively, small contributions add up, allowing us to quickly find & fund the most impactful projects in education, healthcare, and community development as well as other areas of need.

Resilience In Unity: United, we gain access to a network of support that helps weather challenges, from career transitions to social hurdles, without fear of isolation or persecution.

Strengthened Identity: Instant visibility and access to a large likeminded community helps reinforce a sense of belonging, helping individuals develop a stronger, grounded identity. Unlike other platforms, which increasingly exposes users to divisive & illicit content as well as societal & secular pressures.

OUR TEAM'S POTENTIAL:

Resource Optimization & Economic Power: Pooling resources within a large, unified Muslim Collective on a platform like Mecca Digital enables powerful economic strategies such as cooperatives and group purchasing organizations (GPOs). By centralizing and aligning our purchasing power, we can significantly lower the costs of products, goods, and services such as those purchased by supermarkets, or any other Muslim-owned businesses, and essential community services. This approach allows our community to negotiate better rates directly with suppliers, achieving bulk pricing typically reserved for large corporations or retail chains.

Example in Action: Imagine a cooperative grocery purchasing system for halal meats, basic goods, and specialty items. By uniting just a small fraction of the Muslim population—say, 5% of Muslims in America—our studies show that the economic impact would exceed \$1 Billion in the first year alone. This would transform the financial landscape for small Muslim-owned businesses and community supermarkets, who could then offer products at more affordable prices while enjoying higher profit margins.

Impact Beyond Savings: The benefits of optimized resource pooling go beyond cost savings. The capital saved or generated through these cooperatives or by the platform itself could be reinvested back into the community, funding charitable initiatives, supporting startups, creating scholarships, or scaling successful businesses. This cycle of reinvestment not only strengthens community resilience but would help build a

OUR TEAMS POTENTIAL:

lasting legacy of self- sufficiency and economic empowerment.

In this way, a unified and digital town hall for Muslims (A Digital Mecca) would serve as both a Marketplace and Mosque similar to that which The Prophet Muhammad (ﷺ) built on his journey from Mecca to Medina in similar and trying times. This platform could work a financial tool, enabling us to circulate capital & build wealth collectively putting us in a position to help change our condition Insha-Allah.

Therefore you must ask yourselves the following :

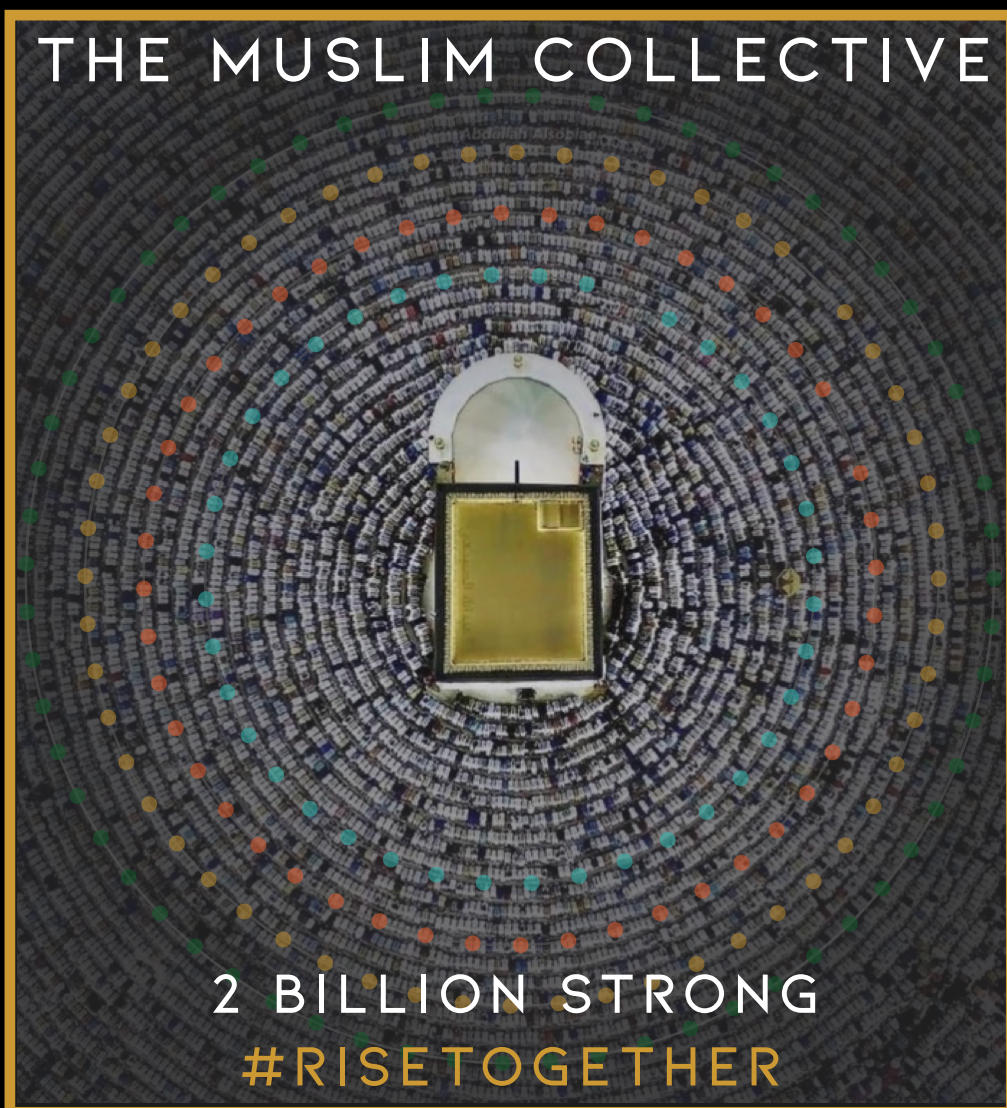

What is the value of a single mobile application that combines faith & technology, strengthens our identity, empowers our community, reduces our reliance on others, increases our collective capacity for action, all while using a prophetic path to profits, power & progress?

IT IS TIME FOR YOU TO
